To be completed prior to Hot Work

Contracting Company: _____

Exact location of work:

Scope of Works: _____

Between _____ and _____ hrs

At all times the contractor is responsible for ensuring compliance by all his/her workers to the Hot Work Fire Safety Precautions below:

- The above location will be thoroughly inspected and appropriate safety precautions will be carried out before commencement of Hot Works.
- All solid combustible material will be removed from the immediate area.
- The operative will make themselves aware of the nearest fire alarm point.
- The operatives will be fully competent in the use and operation of the hot works equipment.
- The correct PPE will be worn at all times.

Additional Restrictions:

- The person authorised by this permit must stop the work if a hazardous situation develops during hot works at the location or adjoining areas.
- The location must not be left unattended during breaks at work.
- Appropriate warning notices will be placed at all access points to the location prior to commencement of any hot works.
